DETAILED ACTION

The amendment filed on 8/22/2005 has been entered. Claims 263 and 265 have been canceled. Claims 264, 266, 267-272 remain for examination.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because informal drawings have been filed. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Applicant is noted of the possible inconsistency between the descriptions of the drawing figures in the specification and the actual drawings.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
